Monthly Meeting of CPWC (Citizens for Protection of Washington County) will be held:

Date: Thursday, June 4, 2009
Time: 7:00 PM
Place: Halfway Volunteer Fire Company
11114 Lincoln Ave.
Hagerstown, MD

CPWC usually doesn't meet in June, July, or August but we were given the unexpected opportunity of hearing Deputy Director, Division of Environmental Management for Washington County, Clifford J. Engle speak on the latest plans and accomplishments in the operation of Washington Counties Landfill. Since many of us are especially interested in recycling and saving landfill space, we decided to provide you the latest scoop ASAP by scheduling a June meeting.

Of course, everyone is interested in hearing news on the county's curbside recycling efforts. As I remember, the Commissioners hired a group to study the options for curbside recycling several months ago but the results of that study have yet to be announced. More recently the Commissioners have been negotiating with a company, Curtis Engines of Baltimore, to begin capturing and using methane gas from the new landfill and possibly from the old landfill as well. That possibility sounds very exciting since the County could someday earn money and be environmentally friendly at the same time.

After a brief presentation, Mr. Engle will be happy to answer your questions and join in a discussion.

So forget the TV and those lawn chores, get out of that lounge chair, join our lively discussion group and help preserve Washington County.
